

INTRODUCING A COMPLETE LINE OF LED FIXTURES FEATURING OUR NEW LIGHTWAVE LED LIGHT ENGINE!

Wave Lighting is proud to announce the arrival of our LIGHTWAVE LED light engine. LIGHTWAVE LED features "Driver-On-Board" technology which eliminates the need for a remote driver.

Wave Lighting now offers wall, ceiling, and post mount fixtures with LIGHTWAVE LED in 3000K and 4000K. Wall and ceiling mount fixtures powered by LIGHTWAVE LED are Energy Star Qualified.

- **Everstone & Marlex Now in LED!**
- **5 Year Warranty on LIGHTWAVE LED Light Engine**
- **Driver-On-Board Eliminates Remote Driver**
- **Energy Star Qualified Models**
- **Easy To Replace**
- **Dimable**
- **3000k or 4000k**
- **12, 15, & 22 Watt 120V AC**
- **800, 1200, & 1800 Lumens**
- **Estimated 50,000 hrs L₇₀**

Lightwave Specifications

- Input Voltage: 120VAC
- Lumen Output @ 80CRI:
12W = 800lm
15W = 1200lm
22W = 1800lm
- Constant current design
- High power factor > 0.98
- Estimated 50,000 hrs L₇₀
- Dimmable to 5% with most triac or electronic dimmers
- Available in 3000K or 4000K CCT
- Polycarbonate optic provides electrical protection
- On board line surge protection
- FCC compliance Class B
